Optimax Windows Update Version 1.3.111

Important

Dial into the Optimax website (www.optimax.mhs.co.za) register to obtain your password (if you do not have one) and follow the instructions as per the screen.

You are granted the right to install the update on your own computer/computers subject to the limitations of the copy protection software. This update is for your practice only. You shall not permit any other person to use this update and Optimax does not hold itself responsible for any software corruption if used by an illegal user.

Instructions

Where more than one Computer is used, as part of a Network in the practice, please ensure that the update is done on the server. The server and all the other workstations must be logged out of Optimax. Failure to follow this instruction will result in very serious data problems occurring.

This update contains :

- Receipts may now be printed to a laser printer
- Stock labels – may be accumulated & printed at a later date, as well as option to reprint.
- New codes with zero values added to Price list
- New SAOA codes
- Price increases on existing codes
- Extras – may be found by typing in the code
- Search fields – alpha or numeric characters may be typed in – will jump to appropriate field.
- DCL may be accessed directly from Master file.

Have you applied for the new Optimax SMS & Internet service
