Optimax Windows Update Version 1.3.116

Important

Dial into the Optimax website (www.optimax.mhs.co.za) register to obtain your password (if you do not have one) and follow the instructions as per the screen.

You are granted the right to install the update on your own computer/computers subject to the limitations of the copy protection software. This update is for your practice only. You shall not permit any other person to use this update and Optimax does not hold itself responsible for any software corruption if used by an illegal user.

Instructions

Where more than one Computer is used, as part of a Network in the practice, please ensure that the update is done on the server. The server and all the other workstations must be logged out of Optimax. Failure to follow this instruction will result in very serious data problems occurring.

This update contains :

- Cell numbers may now be printed on invoice
- Gender flag – created from ID number, now allows Wordmax to create marketing selection by gender.
- Price updates – option to accept codes only – no prices
- Created Group rules for Prime Cure, Nedcor & Oxygen
- Password protected areas time out after specified time period
- Sales listing report – now has Groups with sub titles
- DCL – patients may now be added without invoicing them

Have you applied for the new Optimax SMS & Internet service
